BE REAL BE YOU

*Degrees of the URL Philosophy Faculty taught at La Salle Campus Barcelona.

Welcome, future student,

As director of La Salle Campus Barcelona, it is a pleasure to introduce you in this guide to our identity, our methodology and our official Undergraduate Degrees, which are aimed at people with values, people who come together to make positive changes.

La Salle Campus Barcelona - Ramon Llull University is part of a worldwide network of schools with over 300 years of history. It is thanks to that history and our forward-looking vision that technology is one of our defining features, playing a central role across all our Degrees in the fields of Architecture, Art, Animation and Multimedia, Business & Management, Computer Engineering, ICT Engineering and Biomedical Engineering. At La Salle, you will enjoy an in-depth exploration of modern technology, as well as being perfectly placed to create and master the technologies of the future, all to help you make the most of your talent and skills.

At the same time, you will be able to enjoy University life on an International Campus right in the heart of Barcelona, a place where you can meet people from all over the world and carry out projects alongside students from other Degree programmes in an environment that is the setting for a thirst for knowledge through science and challenges based on real-life situations.

With all these tools and always keeping your authenticity, you will be able to turn your potential into your future to make a better world.

Welcome to La Salle.

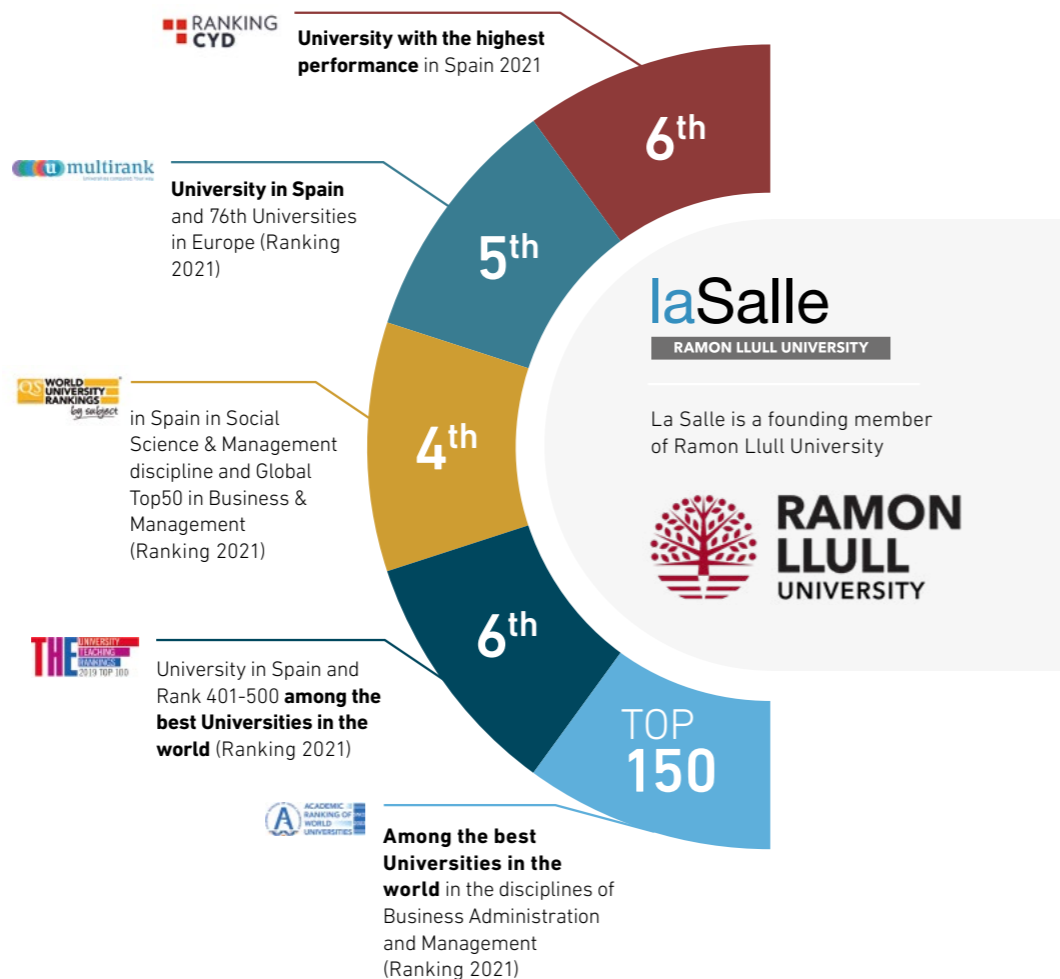

Josep M. Santos
General Director
La Salle Campus Barcelona-URL

RAMON LLULL UNIVERSITY

One of the **3 Campus** of International Excellence in Spain

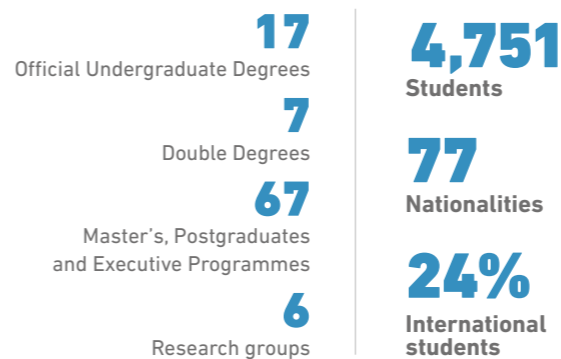

La Salle is part of a worldwide organisation with **over 300 years of history**, and our mission is to train forward-looking people ready to take on the future with optimism, committed, enterprising individuals with an innovative, international outlook, team players that have a strong command of technology.

LA SALLE CAMPUS BARCELONA

At La Salle, you will enjoy a comprehensive University education with official Undergraduate Degrees, Postgraduate Degrees, Master's, PhD Programmes and Specialisation Courses in the areas of **Architecture, Art, Animation and Multimedia, Business & Management, Computer Engineering, ICT Engineering and Biomedical Engineering.**

LA SALLE'S DNA

At **La Salle Campus Barcelona - URL**, we're passionate about challenges, and we're here to help you maximize your talent so you can take on and surpass the challenges you set yourself. We train professionals with values, innovative individuals with a strong capacity for enterprise and a **strong grasp on technology, coupled with an international perspective.**

STUDENTS AT LA SALLE ARE

EXPERTS IN TECHNOLOGY

Technology is present in all La Salle Ramon Llull University Degrees as a transversal axis that identifies the 6 areas of knowledge.

STATE-OF-THE-ART LABORATORIES

At La Salle Campus Barcelona, we have more than **39 specialized laboratories** equipped with the latest technologies related to each Degree programme. **Students can access it whenever they need to work on their projects and advance at their own pace by devoting as much time as they need.**

In the field of research and innovation, La Salle Campus Barcelona has two unique laboratories, the **Internet of Things Institute of Catalonia (IOTICAT)**, which is the first European University laboratory for innovation and research on the internet of the future, and the **Interactive Arts & Science Laboratory (IASlab)**, a laboratory whose objective is to become a **reference hub in the new audiovisual sector and a leading centre in the media technologies of the 21st century.**

METHODOLOGY

THE STUDENT IS AT THE CENTRE OF LEARNING

La Salle-URL has been a **Campus of International Excellence since 2015, and we have received national and international recognition for the quality education we offer**, based on a practical, original methodology in which students learn thanks to our **Learning by Challenge** method:

- 1 Learning by Challenge:** Our own unique methodology that enables students to acquire skills and knowledge through the resolution of real challenges posed by companies, institutions or entities.
- 2 Smart Learning:** Our new personalized, flexible and intelligent educational model based on the use of technology that adapts to the needs of classroom, blended and online training in its multiple versions and possible combinations, and according to the needs of the program and the students.

- 3 Interdisciplinary and transversal approach** between the courses of the Degree itself and the different areas of the Campus.
- 4 Thinking and Creativity:** A unique subject at La Salle where students acquire a greater expressive, imaginative and resolute capacity.
- 5 Small groups** that allow for 100% personalized teaching.
- 6 Guidance from a tutor** on an individual basis and throughout the Degree.

La Salle-URL offers **Smart Learning, a flexible and intelligent educational model** that adapts to the educational needs of students and offers a new way of teaching and learning that complements teaching on-campus.

In addition, students can enjoy the **Smart Classrooms, classrooms that use technology that guarantees on-site and off-site training** for students, always interacting live.

INTERNATIONAL EXCHANGES

LA SALLE - URL ORGANISES EXCHANGES AND OTHER COLLABORATIONS WITH 143 UNIVERSITIES INTERNATIONALLY

"My exchange in Australia was the best thing I've ever done. I met people from all over the world and made friendships that will last a lifetime. Thanks to this experience, I feel more confident and independent".

Pol Cardona, Management of Business and Technology student - Exchange at RMIT (Melbourne).

[More Information](#)

*Degrees of the URL Philosophy Faculty taught at La Salle Campus Barcelona.

**According to RD 822/2021, of September 28th, this program has started the verification process for its implementation in the course 2022/23.

The current Degrees of 180 ECTS from La Salle-URL will be adapted to Degrees of 240 ECTS as soon as possible according to the new regulations. Students who start the current versions of the 180 ECTS Degrees of La Salle-URL will be able to continue their education until they finish it or, if they wish, they can decide whether they want to change their transcript to take the corresponding Degree of 240 ECTS.

DEGREES IN ARCHITECTURE

La Salle - Ramon Llull University's School of Technical Architecture has implemented a **new methodology, inspired by the world's leading Universities** that makes La Salle's School of Architecture and Building Engineering unique, based on cross disciplinary study, internationalization and personalization.

At La Salle, you'll learn through our original Learning by Challenge methodology, and in Design Studio sessions you'll look at real, practical cases, combining **three learning pillars: design, technique and culture.**

Our international approach is major advantage for our students. **You'll go on 3 international stages during your Degree** and you'll be able to work with renowned architects from around the world, both on Campus and at their architecture studios.

- 1 Our teaching staff comprises **leading architects from Barcelona** and the rest of the world, as well as visiting professors.
- 2 **A coach architect** will support and guide you throughout the Degree.
- 3 Our Campus is a **cross-disciplinary laboratory** where you'll learn through experience.
- 4 In the second cycle (4th and 5th year) you'll be able to choose **the semester Units** that will help you personalize your studies as an architect.

DEGREE IN ARCHITECTURE STUDIES

ENGLISH GROUP

STAGES INCLUDED

At La Salle, you'll be trained in responsible architecture that is well designed and built. Guest professors that are **world-class architects** will teach master classes for first-cycle students and Units for second-cycle students. You will be able to go on **3 international stages** during the Degree and study **100% in English.**

5 years (300 ECTS).

SEMESTER UNITS:

In the second cycle (4th and 5th year) you'll be able to choose the Units that help you personalize your studies as an architect. Every year we update the semester units according to the demand and trends of the market and the needs of the students.

- **Campus Unit:** Work with students from other Degrees on Campus.
- **Barcelona Unit:** Projects for the city.
- **International Unit:** International projects that are carried out abroad.
- **Visiting Unit:** A recognized and international prestige professor teaches a Unit.
- **Tectonics Unit:** The art of construction is studied in relation to the use of artistic design.
- **Sustainable Unit:** Architectural sustainability projects.
- **Lab Unit:** From design to 3D construction. New digital manufacturing techniques. More creative, optimal and sustainable.
- **Big Data Unit:** Creating the cities of the 21st century from information. Smart mobility, Zero Waste, Responsive City.
- **Urban Planning Unit:** Quality, friendly and eco-responsible cities and territories, with Barcelona as a reference.

LEARN
ARCHITECTURE WITH
AN INTERNATIONAL AND
TRANSVERSAL VISION

DEGREES IN ART, ANIMATION & MULTIMEDIA

At La Salle Campus Barcelona, you'll gain a solid grounding in the **fundamentals and techniques relating to animation and digital art**. You'll combine the artistic, conceptual, technological, innovative and management-based knowledge required by the industry. Thanks to constant close contact with leading professionals in the sector, our programmes prepare students to become **a key part of the industry in a wide variety of roles**.

DEGREE IN ANIMATION & VFX

ENGLISH GROUP

At **La Salle Campus Barcelona**, you'll attain a solid grounding in the fundamentals and techniques relating to animation and special effects. You'll be trained in all phases of production to create your project from start to finish.

Pre-production: You'll work in the initial phases of a production, from concept, script and design to producing storyboards.

Production: You'll work through all aspects of production relating to shaping your idea, from 3D modelling, textures, rigging, lighting and rendering to fx.

Post-production: You'll be able to bring together all parts of the production to obtain a finished production. You'll work on composition, assembly and colour correction, 3D VFX and Motion Graphics.

Industry: You'll learn the fundamentals of the industry to enable you to begin your own project at the business level.

4 years (240 ECTS).

CREATIVITY AND
TECHNOLOGY GO
HAND IN HAND

- **You'll learn from professionals in the sector** who have taken part in the most relevant productions in recent years.
- **World-class professionals from the field will offer master classes.**
- **You'll be able to travel to Annecy** to attend the major Animation Festival.
- **You'll be able to create your own project, from conception to screenplay and creation of characters**, which you can incorporate into your own comprehensive project (Animation students own the intellectual property rights over their projects).

Double Degree in Digital Arts and Animation:

If during the first course of Digital Arts you discover that you are also passionate about Animation, you can take the Double Degree from the second year.

DEGREE IN DIGITAL ARTS

With this Undergraduate Degree in Digital Arts, inspired by the **fundamentals of the traditional Fine Art**, while offering students the knowledge, technology and **digital tools** the artists of the future need, enabling them to adapt to new artistic trends and the professions of the future. During the Degree, you'll maximize your **creativity**, knowledge of **digital culture** and **production skills**.

3 years (180 ECTS).

DEGREE IN MULTIMEDIA ENGINEERING MINOR IN VIDEO GAMES

With our Degree in Multimedia Engineering, you will combine both **Technology and Creativity**. **You'll learn how to create and develop multimedia products** in all their phases: from conception of content to design, usability, programming and management. The Degree is structured around three fundamental pillars that give you the project global perspective and the tools to take part in any phase of creativity, production and management.

4 years (240 ECTS).

- Only Degree in Multimedia Engineering available in Catalonia.
- You can take a **Minor in Video Games**, that will enable you to take up a leadership position in the **professional market**. All certifications obtained at La Salle - URL are official and internationally recognized.

- **You will study the history of art**, such as color theory, photography, drawing, and sculpture.
- **You will boost your ideas with technology.**
- **Lecturers of reference in the Digital Art sector.**
- You will be able to carry out **projects with students from other Degrees** such as Architecture, Animation, Engineering or Business.

DEGREE IN DIGITAL INTERACTION AND COMPUTING TECHNIQUES

Our Degree in **Digital Interaction and Computing Techniques** will prepare you as a **multimedia product design professional**, and enable you to maximize your creative potential. You'll be qualified as **an expert in communicating and creating interactive content**, as well as in **user experience and interactive peripherals**.

The Degree is based around four blocks: multimedia product design, electrical engineering, programming and multimedia production. Throughout these four blocks you'll gain knowledge you can use in the development and programming of mobile and web applications, programming for communication with peripherals, the generation of special effects and interaction, which allows user experience through machines.

3 years (180 ECTS).

- **Unique Learning by Challenge methodology** with highly **personalized support**.
- You'll be able to work in **multidisciplinary teams** with colleagues from other Degrees such as Multimedia Engineering, Audiovisual Engineering and Digital Arts.

DEGREES IN BUSINESS & MANAGEMENT

The **Business & Management** studies at the International Faculty of Commerce and Digital Economy at La Salle Campus Barcelona provide you with a solid and up-to-date basis to respond to the real needs of change and innovation in the constantly evolving labour market. **We are committed to international projection and practical training**, as well as an advanced application of technology, aimed at business innovation and entrepreneurship.

You will study at an **International University Campus** where you can make your projects come true. To do this, you will have the support of the **La Salle Technova Technological Innovation Park**.

DEGREE IN MANAGEMENT OF BUSINESS & TECHNOLOGY

ENGLISH GROUP STAGES INCLUDED

Our **Degree in Management of Business and Technology** will provide you with all the knowledge you need in order to be competitive in a global business environment. **Our Campus brings together the business world, the latest engineering technology** and a business incubator to allow students to gain a solid understanding about the many benefits of technology.

This Degree can be taken exclusively in English or in both Spanish and English. Our stages in the USA and in another destination in the world offer you the opportunity to enjoy an international experience and get to know two of the largest economies in the world.

4 years (240 ECTS).

You'll be able to specialize with the minor in:

- **DIGITAL ENTREPRENEURSHIP:** You'll develop the skills of an entrepreneur to identify and evaluate new business opportunities.
- **DIGITAL ECONOMY:** You'll specialize in leading the digital transformation at your company or in your sector.
- **SPORTS MANAGEMENT:** You'll learn to manage national and international organizations and companies in the sports sector.
- **DIGITAL MARKETING:** You'll specialize in Marketing, with a strategic global perspective.

DEGREE IN DIGITAL BUSINESS, DESIGN AND INNOVATION

100% ENGLISH STAGES INCLUDED

La Salle Campus Barcelona, in collaboration with La Salle Technova technology business incubator, has created this **unique Degree in Spain** as a comprehensive experience in **entrepreneurship and digital business**.

This official 3-year Degree is designed to accelerate each student's personal projects in the fields of entrepreneurship and innovation, or to prepare them to be part of a larger project or consolidated start-up.

3 years (180 ECTS).

- **You'll be able to choose your specialization**, focusing on creating your own business as you study, or train to be a digital innovator at a start-up or an established company.
- **You'll enjoy an international experience** through international stages in the USA and in another destination in the world and a Global Exchange Program that will take you to visit the world's main business centres and get to know other cultures.
- **You'll take part in master mentoring and coaching sessions** with renowned professionals.

BUSINESS FOR A NEW GENERATION OF BUSINESS LEADERS

DEGREE IN BUSINESS INTELLIGENCE & DATA ANALYTICS

100% ENGLISH STAGES INCLUDED NEW

With the new **Degree in Business Intelligence & Data Analytics** you will learn to use data in a strategic way with a business vision applied to marketing, logistics, business expansion and product design.

Through active methodologies you will **develop analytical skills and you will learn to use techniques like Data Science, Analytics, Business Intelligence and Big Data**.

This is done with a **digital marketing and business approach** with the aim to learn and identify opportunities and transform businesses. Furthermore, the program is complemented with study tours in some of the top technological centres in the world.

4 years (240 ECTS).

- This Degree is unique because of the **combination of knowledge** in business management and data analysis.
- You will be able to develop **analytical, communicative and ethical skills**.
- **You will have an international experience** on Campus thanks to the study tours in two of the top technological centres in the world.

You also have the option of taking the **Double Degree in Business Intelligence & Data Analytics and Technology Business Management**.

DEGREES IN COMPUTER ENGINEERING

At La Salle Campus Barcelona, we offer you the widest range of courses in Computer Engineering, with **4 different Undergraduate Degrees**. From Degrees taught 100% in English that will give you an international vision and double Degrees to our 3-year Degree in Software Application Techniques.

As a student at La Salle, you'll acquire a broad knowledge of new applied technologies, both at the technical and the management level, and you'll be able to adapt rapidly to the evolution of technology, with a **practical methodology**. You'll have access to **specialized laboratories and cutting-edge tools** to put into practice what you learn from day one.

DEGREE IN SOFTWARE APPLICATION TECHNIQUES

With this Degree you'll become a professional expert in web programming, mobile app development, systems administration and digital marketing tools. Our **highly practical approach** covers four main blocks:

3 years (180 ECTS).

- Software, mobile and web application **development**.
- **Administration of databases** and systems.
- **Administration of local and distributed systems**.
- **Use of leading technologies** at an international level.

DEGREE IN INTERNATIONAL COMPUTER ENGINEERING

100% ENGLISH STAGES INCLUDED

Our Degree in International Computer Engineering will let you take your place among a **new generation of computer engineers** who are able to work in a global environment and lead the digital revolution.

4 years (240 ECTS).

- A global approach with **two stages abroad** (USA and another destination in the world).
- You'll be trained in the latest programming languages and you'll have the new **LS Smart Lab**, a kit that will allow you to do engineering practises anywhere.
- You will be prepared to obtain **CCNA and CCNP of CISCO Systems professional certification**.

DEGREE IN COMPUTER ENGINEERING

Study Computer Engineering at La Salle to become a **professional able to work with the latest technologies and new products**, designing, implementing and maintaining computer systems for any sector.

With our **highly practical approach**, based on real cases, we will train you to be an active part of the cloud computing, Big Data and artificial intelligence revolutions.

4 years (240 ECTS).

DOUBLE DEGREE QUALIFICATION IN INTERNATIONAL COMPUTER ENGINEERING AND MANAGEMENT OF BUSINESS AND TECHNOLOGY

100% ENGLISH STAGES INCLUDED

La Salle Campus Barcelona **is the only University in Spain to offer this double Degree** with the aim of training future management and tech professionals capable of taking on roles in business management, consultancy, or deploying IT systems.

5.5 years (395 ECTS).

- **International, global and interdisciplinary approach** with two stages abroad (USA and another destination in the world).
- Advance your skills related to **network management** and you will be prepared to obtain **CCNA and CCNP of CISCO Systems professional certification**.
- We place the student and the **technology at the heart of your learning** to develop new opportunities.

- You will be prepared to obtain **CCNA and CCNP of CISCO Systems professional certification**.
- You'll work with the new **LS Smart Lab**, a kit that will allow you to do engineering practises anywhere.
- You can specialize in **Video Games, Cybersecurity or Robotics**.

DEGREES IN ICT ENGINEERING

With **more than 50 years' experience** in the field of Engineering, at La Salle Campus Barcelona we are deeply committed to **innovation and new technologies as a basis for learning**, creating new Degrees and specializations such as Video Games, Robotics and International Computer Engineering.

As an engineering student, **you'll have access to all the unique facilities and laboratories** equipped with the same technologies you'll use in the real world, along with a **unique methodology** based on solving real business challenges, as well as working with your LSMaker, La Salle's own robotics platform.

DEGREE IN TELECOMMUNICATIONS SYSTEMS ENGINEERING

La Salle-URL, which became the first telecommunications University in Catalonia in 1965, will train you in the latest technologies behind **interactive TV distribution networks, fibre optic networks and internet access infrastructures**.
4 years (240 ECTS).

- You'll be trained in the very **latest technologies** that make the transmission and reception of content possible.
- You'll take part in **international research and technology transfer projects**.

**LA SALLE ENGINEERS
ARE HIGHLY RECOGNIZED
FOR THEIR SKILLS
AND RIGOR**

DEGREE IN ELECTRONIC ENGINEERING MINOR IN ROBOTICS

In the Degree in Electronic Engineering, with a strong grounding in ICT, you'll learn to create **tangible elements with artificial life** that will transform business and improve daily life.

4 years (240 ECTS).

- You'll perform the tasks involved in all life cycle phases of **systems, applications** and electronic products solving problems in any area of ICT, as well as the robotics sector.
- You'll take part in **international research and technology transfer projects**.
- You'll be able to specialize in **Robotics** and create technology with **artificial intelligence** in a sector that's seeing great growth.

DEGREE IN TELEMATIC ENGINEERING (NETWORKS AND INTERNET TECHNOLOGIES)

With the Degree in Telematics Engineering you will acquire the necessary knowledge to **conceive, design, implement and operate telecommunications networks**, as well as the security mechanisms of the same network and the data that is transmitted, the protocols, and the different services and applications.

4 years (240 ECTS).

- You will obtain **professional certifications such as CCNA, CCNP and CISCO Systems**.
- You will work with the new **LS Smart Lab**, a kit that will allow you to do engineering practices from anywhere.
- You can specialize in **Cloud Computing, Internet of Things and Cybersecurity**.

DEGREE IN AUDIOVISUAL SYSTEMS ENGINEERING

With this Degree you will specialize in the areas of **image and sound**. During the Degree you will learn all aspects of pre-production, production and post-production of the two major areas and the fundamentals of business management in the sector.

4 years (240 ECTS).

- You will be part of a technical team in **multidisciplinary projects**.
- You will have access to **specialized laboratories** such as the Anechoic Chamber, the Reverberant Chamber, the Recording Studios, the Digital TV laboratory and the Medialab.

DEGREE IN ENGINEERING IN ORGANIZATION OF TECHNOLOGIES OF THE INFORMATION AND COMMUNICATION

Unique University Degree in Spain and with an international focus. Studying the Degree in Engineering in ICT Organization will give you a unique profile within the world of engineering, since it combines scientific-technological knowledge with socio-economic notions.

4 years (240 ECTS).

- We will train you to **lead teams of engineers** in telecommunication systems with an international and global focus.
- You will receive knowledge in **engineering and management**.

DOUBLE DEGREES IN ENGINEERING

La Salle Campus Barcelona offers you **5 double Degrees in the field of ICT Engineering**.

The design of these Double Degrees allows students to take two Degrees that complement each other and, therefore, provide the student with a **global and interdisciplinary approach** that opens up many professional opportunities: those of each of the Degrees studied and the special ones of profiles that have a mixed knowledge of the two areas.

5 years.

Telematics Engineering and Computer Engineering
(308 ECTS)

Computer Engineering and Multimedia Engineering

DEGREES IN BIOMEDICAL ENGINEERING

DEGREE IN MEDICAL AND HEALTH ENGINEERING*

NEW STAGE INCLUDED

The new Degree in Medical and Health Engineering is aimed at students with critical and analytical thinking skills who wish **to lead the evolution of one of the fastest growing sectors: technology applied to medicine and health.**

The Degree in Medical and Health Engineering is a Degree from the Ramon Llull University, designed by the La Salle Higher Technical School of Engineering and the Blanquerna Faculty of Health Sciences.

Complete training in engineering, management, innovation and health sciences is combined with a humane and caring vision.

4 years (240 ECTS).

- You will be trained in the personal and professional skills to **create and manage innovative technological solutions in the field of health.**
- You will be able to access to **specialised laboratories** and will learn with real projects.
- You will be able to do an **international stage in the USA** and to know projects and companies.
- You will carry out **internships in hospitals and companies in the sector.**

*According to RD 822/2021, of September 28th, this program has started the verification process for its implementation in the course 2022/23.

DEGREES IN PHILOSOPHY AND HUMANITIES

DEGREE IN PHILOSOPHY*

The Degree in Philosophy will allow you to **know the most important currents of thought in history** and to approach the great questions that have affected and affect humanity that wonders about the meaning and foundation of existence.

4 years (240 ECTS).

DEGREE IN PHILOSOPHY, POLITICS AND ECONOMICS*

With the Degree in Philosophy, Politics and Economics you will be able to **develop your critical thinking, reflecting and deepening on what happens in society in relation to politics and economics.** It will train you as a **social consultant, analyst or researcher in the field of social and human sciences**, accessing a Degree deeply rooted in the Anglo-Saxon educational system since the beginning of the 20th century.

This Interuniversity Degree is taught jointly with the University of Deusto and the University of Comillas. It is offered in the blended mode, according to the itinerary chosen in the fourth year.

4 years (240 ECTS).

*Degrees of the Faculty of Philosophy URL taught at La Salle Campus Barcelona.

ADMISSION PROCESS

The admission process begins the **2nd of November 2021**. For the Undergraduate Degrees in **Philosophy and Humanities and Biomedical Engineering** begins the **17th of January 2022**.

We recommend you begin the process before finishing your studies.

[Start the admission process 100% online](#) ✨

SCHOLARSHIPS AND GRANTS

At La Salle, **people come first**, and our scholarship program allows young people with the necessary knowledge and skills to study with us, regardless of their economic, family, geographical and cultural background.
